

This is an unprecedented time in our history. The COVID-19 pandemic sweeping the globe is taking a heavy emotional and physical toll on our loved ones, dramatically impacting the economy, shuttering local businesses and fundamentally changing the way we live.

As residents across New York feel the impact of lost wages, reduced hours and quarantine restrictions, we at Maple Hill Creamery plan to do everything in our power to ensure individuals and families can meet their nutritional needs during these challenging times. That is why we are proud to partner with the New York State Department of Agriculture on behalf of Governor Andrew Cuomo, and the nonprofit Feeding America to distribute more than 200,000 cartons of organic, grass-fed milk and yogurt to vulnerable area residents. Donations are being distributed to regions hit hardest by the virus including New York City, Westchester, and Long Island, along with parts of New Jersey with particular attention to residents who are facing hunger as a result of the COVID-19 outbreak.

In times of crisis, New Yorkers step up and take care of their friends and neighbors. We are proud of our New York-based farms and are deeply grateful for the opportunity to serve our community in this way. Your support of Maple Hill Creamery allows us to fulfill this promise. We thank you for your loyalty and urge you to continue supporting all of the local business owners, employees, and farmers who have been affected by this crisis. We are in this together. Please stay safe and well!

With deepest appreciation,

The Maple Hill Team
